

ADP2560 BA

Cordless Dot Peen Marking System

The ADP2560 BA is a compact and lightweight portable system capable of permanently marking metal and hard plastic surfaces. Mark all day long using the two included rechargeable batteries.

The marking pin is controlled by two motorized X and Y axes for fast marking on a variety of surfaces. Use the pin distance adjustment dial to change the marking depth.

Marking programs including text and images are created on the integrated touchscreen controls. Use the software to lay out your marking fields, change text height and width, adjust dot spacing, and more.

- Marking head with 4mm marking pin and integrated color touchscreen controller
- Set of interchangeable standoffs for different marking jobs
- Set of two 18V batteries and a charger

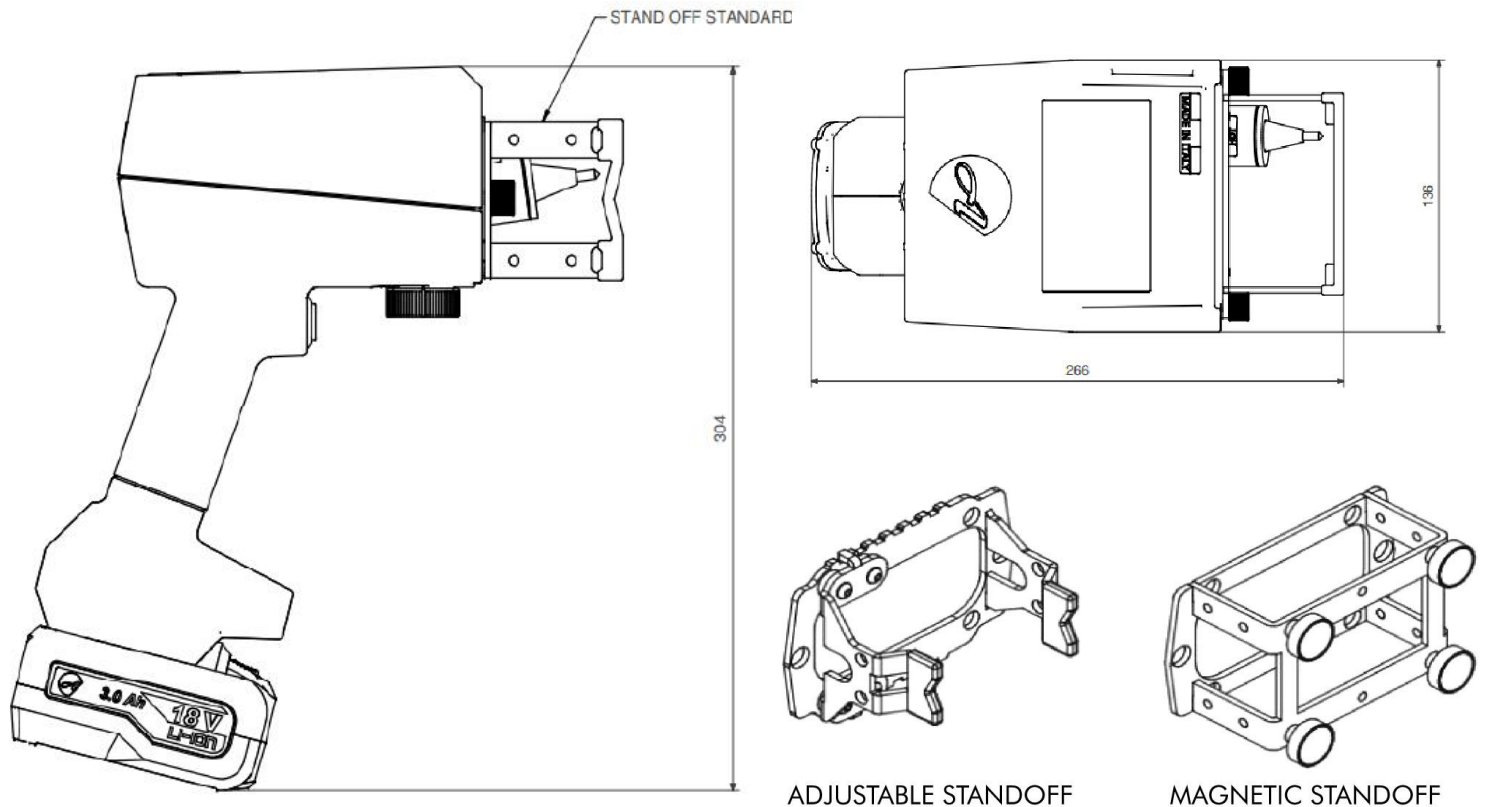

Color touchscreen controls for easy programming

Dial for easy pin distance adjustment

SPECIFICATIONS

Marking Window	1" x 2.4"	25 x 60 mm
